## ***RESCHEDULED UNTIL NEXT WEEK*** **DRAINAGE WORK ON SR-38 IN FAWNSKIN**

**Fawnskin** – Caltrans will construct a drainage system on State Route 38 along the shoulder and roadway on the west end of Fawnskin. One lane will be closed with flagging during the work hours, Monday through Friday from 7:00 a.m. to 4:00 p.m. **The work will now begin on Monday, March 2, 2009 due to inclement weather.**

The project will improve water flow and drainage along the route, which has been known for flooding during heavy storms.

The work is expected to be complete by the end of March 2009, weather permitting.

Please slow down when you see the flagging and follow any instructions given by road workers. The life you save may be your own when you...

***Slow for the cone zone!***
